

SCANRETAIL

Meeting Pod

// Introduction

Scan Retail was formed in 2011 and specialises in point-of-sale and retail display products. Scan Retail offers both off-the-shelf and custom-crafted products, including interior signage and branding, retail kiosks, shop fittings, bespoke displays and mobile meeting rooms.

// Overview

We have a new format of modular meeting pods which create the perfect meeting room or office for any location.

Contemporary, flexible, with unrivalled acoustic qualities, the pod offers complete privacy. It also has unlimited design & branding possibilities to suit your working environment.

// Modern Profile

The rectangular footprint of the pod is practical enough to make the most of what space you have available, while its curved corners; ultra-slim profile maintains an elegant aesthetic.

A place to meet, work or think.

// Modular Design

The pod has been designed to be moveable and modular. This means it is flexible enough to be expanded, should you need a larger working space, or moved easily to another part of your building.

The base module is 3 x 3m and can be increased by adding sections and additional 'power' arches as and when you need. The arches contain all power, data lighting and airflow systems.

**Let the pod move (and grow)
with you.**

// State of the Art Features

With an ultra-slim profile, illuminated switches, soft-close door dampening, silent fans and minimal use of aluminium, the pod is a pleasure to use and is beautifully designed - right down to the very last detail.

// State of the Art Features

1. A flexible channel on the inside face of each upright allowing a vast range of accessories to be added at any time. Accessories include:

- Storage units
- AV Panel and brackets
- Poseur table
- Shelving

// State of the Art Features

2. Carefully selected materials have been chosen to ensure that the pod delivers unrivalled acoustic performance – a noise suppression factor of 29dB.
3. Back lit push button switches control the energy efficient LED lighting and ultra silent fan.
4. The pod can be customised with vinyl or tension fabric graphic walls to promote and enhance your brand.
